Minority Business Partnership: Five Forward

A program that builds a stronger regional economy through minority business development

Chicago United is the premier thought leader in advancing inclusion. Our signature programs, initiatives and research provide the tangible tools your company needs to transform culture within your organization.

Your Chicago United membership includes access to Minority Business Partnership: Five Forward™ initiative.

Strategic Priority:

Cultivating a thriving minority business community.

- *To see more growth in the number of MBE launches and partnerships.*

The Goals

1

Restructure Five Forward™ and expand Minority Business Partnership.

We will expand growth in the number of minority business enterprise (MBE) launches and partnerships. We will do this by collaborating with external partners which will aid in building capacity to help scale MBEs.

2

Create a directive approach and customized plan for each partnership.

We will connect MBEs to external collaborative partners that can assist with financial assistance, grant opportunities, and leadership development.

3

Connect MBEs to business development resources.

We will facilitate networking and partnership opportunities amongst MBEs and corporations, which sets the foundation for future partnering and business opportunities.

Through the Minority Business Partnership program, Chicago United will collaborate with strategic partners to provide MBEs programming, workshops and advice on capacity building. Additionally, we will connect MBEs with capital and government assistance for growth opportunities and strategic alliances.

Through our Five Forward™ initiative, we will continue to engage the corporate community in our common goal of strengthening the local economy and enhancing job creation. We will work one-on-one with your business to develop a customized plan that supports your business' diversity goals.
